WHAT I FOUND FROM THE OUTSIDE

Missed 2am calls could be costing you about $11,340 a month.

Your site leads with a 24/7 line and a 60-minute arrival, and that promise only holds when someone picks up. Overnight, the person answering is often the one running equipment on another loss, and a homeowner standing in water does not leave a voicemail.

HOW I GOT TO THAT NUMBER

70	8.4	4.2	2.52	$11,340
emergency calls a month	12% reach voicemail or hold during active jobs	50% call another company instead of waiting	60% would have become a mitigation job	a month at a $4,500 average mitigation ticket

70 × 12% × 50% × 60% × $4,500 = $11,340 a month. My estimates, from your site and typical restoration economics. You know your real call volume. Tell me where I'm off.

What changes

An AI voice agent answers every call live, takes the address, water source and carrier, dispatches your on-call tech and texts the homeowner an arrival window. A night dispatcher or answering service doing that job runs $2,500 to $4,000 a month.

MORE I CAN PUT A NUMBER ON

Web leads wait behind a math question — **$6,750** /mo

Your callback form ends with "What is 4 + 3?" and confirms nothing. 20 leads a month, 25% after hours, 50% go elsewhere, 60% close, $4,500 ticket.

Other numbers carry your name — **$2,700** /call

Your name and address also appear with 602-497-4035 on a second site and 520-375-2876 on a mold directory. 60% close, $4,500 ticket.

Monthly figures on this page: **$18,090 a month**

OUTSIDE-IN MARKETING CHECK

- OK — **Reviews.** 4.9 stars across 100+ Google reviews. Your strongest asset.
- OK — **Email signing.** DKIM is set up through Brevo.
- Fix — **SPF.** No SPF record on your domain, so inboxes cannot check who may send as you.
- Fix — **DMARC.** Set to monitor only, so nothing tells inboxes to reject mail forged in your name.
- Fix — **Second site.** azrestorationspecialist.com promises a 30-minute response, shows a 2018 copyright and runs no analytics.

Fifteen minutes. Check my math with me.

Scan the code or call. If your numbers are smaller, I'll say so.
